Projected '03: +15%

Est. 1989 Employees: 120

Kitchen and bath cabinetry, home theatre, library and office

For the third consecutive time, Signature Custom Cabinetry has made a good showing in the WOOD 100. The company has nearly doubled its 1999 sales of \$5,712,000 and has added a few more employees. Kent Martin, president and CEO, says it is, in fact, the employees who make all the difference in whether the company is successful or not. "In our business, a skilled workforce is essential to accurate execution of orders, which is our number one priority. Without our skilled and dedicated associates, this would be impossible to achieve." Martin thinks that 2004 will be the company's best ever.
